Subject Index to Volume 223 (January–June 1996)

A

Abdominal aortic aneurysm
  combined aortic and renal artery surgery and, 555
  ruptured, time-series analysis of outcome, 492
Abdominal sonography, for diagnosis of bowel obstruction, 235, 237
Abdominal surgery
  protein-sparing therapy after, lack of clinical effects, 357
  reverse portal flow and, 370
Abscess, hepatic pyogenic, 600
Adenocarcinoma
  colorectal
    chemoradiation, radiation, resection for, 177
    in Crohn's disease, 186
  pancreatic
    en bloc vein resection and, 154
    of body and tail, management, 506
    ductal, long-term survival after curative resection, 273
Adhesions, postoperative, foreign material in, 242
Amino acid transport, interleukin-6 stimulating, 610
Anesthesia, local, simultaneous repair of bilateral inguinal hernias under, 249
Aneurysm
  aortic, abdominal
    combined aortic and renal artery surgery and, 555
    endovascular grafting and, 568
    ruptured, time-series analyis of outcome, 492
  aortic, thoracoabdominal repair, visceral ischemia and organ dysfunction after, 729
Angiotensin II, vascular response in hepatocellular cancer and, 225
Anticoagulant therapy, importance in blunt carotid injury, 513
Anti-intercellular adhesion molecule-1, specific acceptance of fetal bowel allograft and, 94
Aorta, thoracic, resection, 534
Aortic aneurysm
  abdominal
    combined aortic and renal artery surgery and, 555
    endovascular grafting and, 568
    ruptured, time-series analysis of outcome, 492
  thoracoabdominal repair, visceral ischemia and organ dysfunction after, 729
Aortic surgery, renal artery surgery combined, 555

B

Bacteria, intraperitoneal, route of nutritional supply and, 84
Barrett's esophagus, with high-grade dysplasia, esophagectomy as optimal therapy, 585
Beta-blockade, peripheral lipolysis in burn patients receiving growth, hormone and, 777
Bile duct stricture, benign, bilioenteric anastomosis for, 639
Biliary tract stones, management in heart transplant patients, 747
Bilioenteric anastomosis, for benign bile duct stricture, long-term follow-up, 639
Blunt carotid injury (BCI), importance of early diagnosis and anticoagulant therapy, 513
Blunt trauma, metabolic response during first 25 days after, 395
Book reviews, 101, 232, 441
Bowel allograft, fetal, specific acceptance in mice, 94
Bowel obstruction, abdominal sonography for diagnosis, 235, 237
Breast, tubular carcinoma, 342
Breast cancer
  breast conservation therapy for, long-term results, 709
  mammographically detected, 688
Burn patients, peripheral lipolysis in, beta-blockade lowering, 777
Burns, severe, current treatment, 14

C

Caloric restriction, heat shock expression in gut and, 592
Cancer. See also Carcinoma
  breast
    breast conservation therapy for, long-term results, 709
    mammographically detected, 688
  colorectal
    metastasis to liver, repeat hepatic surgery for, 765
    minimally invasive surgery for, 790
    postoperative stay associated with patient prognosis, 349, 351
    prognostic power of Doppler perfusion index, 199
  gastrointestinal, hormonal therapy and, 4, 12
  hepatocellular, decreased vascular response in, 225
  pancreatic
    national patterns of care, 261
    pancreaticoduodenectomy and, 718
    primary prognosticator after regional pancreatectomy, 147
Cancer patients, postsurgical, early enteral feeding and, 316
Candidemia, death among liver transplant recipients and, factors associated, 70
Carcinoma. See also Cancer
  colorectal
    laparoscopic-assisted large-bowel excision for, 170
    postoperative stay associated with patient prognosis, 349, 351
  gastric remnant, management, 701
  hepatocellular, cirrhosis and, results of surgical treatment, 297
  squamous cell of esophagus, therapy after palliative surgical resection, 127
  tubular of breast, 342

Cardiac valve homografts, cryopreserved, ventricular outflow tract reconstructions with, 544
Cardiac wounds, surgeon-performed ultrasound in patients with, 737
Catheter-related infection, prevention, 363
Cdk4, intestinal cell cycle regulation and, 620
Cell cycle, intestinal, regulation, 620
Cesarean section, emergency in trauma patients, infant survival after, 481
Chemoradiation, preoperative infusional, for colorectal adenocarcinoma, 177
Cholangiocarcinoma, hilar, factors influencing postoperative results, 384
Cholangiography, endoscopic retrograde, role in laparoscopic era, 212
Cholangiopancreatography, endoscopic retrograde, role in laparoscopic era, 212
Cholecystectomy
  early *versus* delayed, for treatment of acute cholecystitis, 37
  open *versus* laparoscopic
    current status, 1
    recovery of fasted and fed gastrointestinal motility after, 413
Cholecystitis, acute, early *versus* delayed laparoscopic cholecystectomy for treatment, 37
Choledochoscopy, percutaneous, methods, indications, and results, 26
Cilastatin, for intra-abdominal infection, 303
Ciprofloxacin, plus metronidazole, intravenous/oral treatment of intra-abdominal infection and, 303
Cirrhosis
  hepatocellular carcinoma and, results of surgical treatment, 297
  Vibrio vulnificus infection and, 428
Cisplatin, for squamous cell carcinoma of esophagus after palliative resection, 127
Colon, fetal and neoplastic expression of neurotensin gene in, 464
Colorectal adenocarcinoma
  in Crohn's disease, 186
  pelvic recurrence, chemoradiation, radiation, and resection for, 177
Colorectal cancer
  metastasis to liver, repeat hepatic surgery for, 765
  minimally invasive surgery for, 790
  prognostic power of Doppler perfusion index, 199
Colorectal carcinoma
  laparoscopic-assisted large-bowel excision for prospective evaluation, 170
  patient prognosis, postoperative stay associated, 349, 351
Crohn's disease
  colorectal adenocarcinoma in, 186
  risk for relaparotomy in, 253
Cyclin D1, intestinal cell cycle regulation and, 620

D

Doppler perfusion index (DPI), prognostic power in colorectal cancer, 199

E

Endotoxin, cardiovascular response to, role of tumor necrosis factor and nitric oxide, 63
Enteral feeding, early in postsurgical cancer patients, 316
Enzyme deficiency, agenetic, jejunal transplants and, 649
Esophageal perforation, laparoscopic Nissen fundoplication and, 43
Esophagectomy, as optimal therapy for Barrett's esophagus with high-grade dysplasia, 585
Esophagus
  Barrett's with high-grade dysplasia, esophagectomy as optimal therapy, 585
  squamous cell carcinoma, therapy after palliative surgical resection, 127

F

Familial hypercholesterolemia, liver-directed *ex vivo* gene therapy and, 116
Fas antigen, induction of apoptosis on circulating lymphocytes by, surgical stress and, 434
Fish oil structured lipid enteral formula (FOSL-HN), for early enteral feeding in postsurgical cancer patients, 316
5-Fluorouracil, for squamous cell carcinoma of esophagus after palliative resection, 127

G

Gastric lymphoma, curative surgery for, long-term follow-up, 53
Gastric perforation, laparoscopic Nissen fundoplication and, 43
Gastric remnant carcinoma, management, 701
Gastroesophageal reflux disease, laparoscopic fundoplication for, physiologic approach, 673
Gastrointestinal cancer, hormonal therapy and, 4, 12
Gene therapy
  liver-directed *ex vivo*, for familial hypercholesterolemia, 116
  in surgery, 115
Glutathione, skeletal muscle concentrations after surgical trauma, 420

H

Heart and lung transplantation, survival benefits, 576
Heart transplantation, management of biliary tract stones in patients, 747
Heat shock protein, expression in gut, caloric restriction increasing, 592
Hematologic malignancies, postoperative complications after splenectomy, 290
Hepatic abscess, pyogenic, 600
Hepatocellular cancer, decreased vascular response in, decreased angiotensin II receptors mediating, 225
Hepatocellular carcinoma, cirrhosis and, results of surgical treatment, 297
Hepatocytes, interleukin-6 receptor expression in, amino acid transport and, 610
Hernias, inguinal, bilateral, simultaneous repair under local anesthesia, 249
Hilar cholangiocarcinoma, resection, factors influencing postoperative results, 384
Hormonal therapy, of gastrointestinal cancer, 4, 12
Hypercholesterolemia, familial, liver-directed *ex vivo* gene therapy and, 116
Hypermetabolism, blunt trauma and, 395

I

Imipenem, for intra-abdominal infection, 303
Immunity, upper respiratory tract, loss with parenteral feeding, 629
Indocyanine green, biliary excretion, hepatic lobar function after right portal vein embolization and, 77
Infection
  catheter-related, prevention, 363
  intra-abdominal, intravenous/oral treatment with ciprofloxacin plus metronidazole, 303
  Vibrio vulnificus, hepatic dysfunction and, 428
Inguinal hernias, bilateral, simultaneous repair under local anesthesia, 249
Interleukin-1, progression of acute pancreatitis and, 163
Interleukin-6, in bile after orthotopic liver transplantation, diagnosis of acute rejection and, 204
Interleukin-6 receptor, expression in hepatocytes, amino acid transport and, 610
Intestinal metabolism, alanyl-glutamine dipeptide-supplemented parenteral nutrition and, 334
Intestine, cell cycle regulation in, 620

J

Jejunal transplantation, agenetic enzyme deficiency and, 649

L

Laparoscopic cholecystectomy, recovery of fasted and fed gastrointestinal motility after, 413
Letters to editor, 101, 445
Leukocyte function-associated antigen-1 antibodies, specific acceptance of fetal bowel allograft and, 94
Liver
  blunt injury, nonoperative management in children, 286
  changes in lobar function after right portal vein embolization, 77
  colorectal cancer metastasis to, repeat hepatic surgery for, 765
  dysfunction, *Vibrio vulnificus* infection and, 428
  pyogenic abscess, 600
Liver transplantation
  candidemia-related death and, factors associated, 70
  diagnosis of acute rejection in, interleukin-6 in bile and, 204
  in infants younger than 1 year of age, 658
Local anesthesia, simultaneous repair of bilateral inguinal hernias under, 249
Lung volume reduction surgery, case selection, operative technique, and clinical results, 526
Lymphocytes, circulating, induction of Fas-mediated apoptosis by surgical stress, 434
Lymphoma, gastric, long-term follow-up after curative surgery, 53

M

Malignancies
  hematologic, postoperative complications after splenectomy, 290
  peripancreatic, minimal access surgery in staging of patients, 134
Managed care, impact on medical education/research, 453
Medical education/research, impact of managed care, 453
Melanoma, sentinel lymph node identification in, intraoperative radiolymphoscintigraphy and, 217
Metabolic rate, after thermal injury, effect of ambient temperature, 406
Metabolism, alanyl-glutamine dipeptide-supplemented parenteral nutrition and, 334
Metronidazole, plus ciprofloxacin, intravenous/oral treatment of intra-abdominal infection and, 303

N

Needle localization surgical biopsy, mammographically detected breast cancer and, 701
Neoplasms, mucin-producing of pancreas, 141
Neurotensin gene, fetal and neoplastic expression in colon, 464
Nissen fundoplication, laparoscopic
  gastric and esophageal perforations and, 43
  gastroesophageal reflux disease and, 673
Nitric oxide, role in acute cardiovascular response to endotoxin, 63

P

p21, intestinal cell cycle regulation and, 620
Pancreas, mucin-producing neoplasms of, 141
Pancreatectomy, laparoscopic distal 70%, for chronic pancreatitis, 280
Pancreatic adenocarcinoma
  of body and tail, management, 506
  en bloc vein resection and, 154
Pancreatic cancer
  national patterns of care, 261
  pancreaticoduodenectomy and, 718
  primary prognosticator after regional pancreatectomy, 147
Pancreatic ductal adenocarcinoma, long-term survival after curative resection, 273
Pancreaticoduodenectomy, pancreatic cancer and, 718
Pancreatic transplantation, success and complications at one institution, 757
Pancreatitis
  acute, interleukin-1 receptor and, 163
  chronic, laparoscopic distal 70% pancreatectomy and splenectomy for, 280
  quality of life after treatment, 665
Pancreatoduodenectomy, with preservation of pylorus and gastroduodenal artery, 194
Parathyroid autotransplantation, during thyroidectomy, 472
Parenteral feeding, loss of upper respiratory tract immunity and, 629
Parenteral nutrition, alanyl-glutamine dipeptide-supplemented, intestinal metabolism and, 334
Peripancreatic malignancies, minimal access surgery in staging of patients, 134
Portal vein embolization, changes in hepatic lobar function after, 77
Postoperative adhesions, foreign material in, 242
Propranolol, peripheral lipolysis in burn patients and, 777
Protein-sparing therapy, postabdominal surgery, lack of clinical effects, 357

R

Radiation, preoperative infusional, for colorectal adenocarcinoma, 177

Radiolymphoscintigraphy, intraoperative, sentinel lymph node identification in melanoma and, 217
Relaparotomy, risk for in recurrent Crohn's disease, 253
Renal artery surgery, aortic surgery combined, 555
Reverse portal flow (RPF), in intrahepatic portal branches after surgery, 370

S

Sentinel lymph node, identification in melanoma, intraoperative radiolymphoscintigraphy and, 217
Skeletal muscle, glutathione concentrations after surgical trauma, 420
Sonography, abdominal, for diagnosis of bowel obstruction, 235, 237
Spleen, blunt injury, nonoperative management in children, 286
Splenectomy, for hematologic malignancies, postoperative complications, 290
Stereotactic core needle biopsy, mammographically detected breast cancer and, 688
Surgery
  abdominal
    lack of clinical effects with protein-sparing therapy after, 357
    reverse portal flow and, 370
  aortic and renal artery combined, 555
  gene therapy and, 115
  hepatic, for colorectal cancer metastasis to liver, 765
  minimal access, in staging of patients with peripancreatic malignancies, 134
  minimally invasive, for colorectal cancer, 790
  prevention of catheter-related sepsis and, 363
Surgical research, attitudes and opinions toward, survey of surgical residents, 377
Surgical stress, induction of Fas-mediated apoptosis on circulating lymphocytes by, 434
Surgical trauma, skeletal muscle glutathione after, 420

T

Thoracic aorta, resection, clamp and sew still viable?, 534
Thyroidectomy, parathyroid autotransplantation during, 472
Transplantation
  heart, management of biliary tract stones in patients, 747
  heart and lung, survival benefits, 576
  jejunal, agenetic enzyme deficiency and, 649
  liver
    candidemia-related death and, factors associated, 70
    diagnosis of acute rejection in, interleukin-6 in bile and, 204
    in infants younger than 1 year of age, 658
  pancreatic, success and complications at one institution, 757
Trauma
  blunt, metabolic response during first 25 days after, 395
  emergency cesarean section and, infant survival after, 481
  surgical, skeletal muscle glutathione after, 420
Tumor necrosis factor
  role in acute cardiovascular response to endotoxin, 63
  Vibrio vulnificus infection in presence of hepatic dysfunction and, 428

U

Ultrasound, surgeon-performed in patients with possible cardiac wounds, 737
Upper respiratory tract immunity, loss with parenteral feeding, 629

V

Ventricular outflow tract reconstruction, cryopreserved cardiac valve homografts and, 544
